

Most commonly used machine learning and deep learning packages and their usage.

Package	Usage
Scikit-learn	Machine learning libraries
SciPy	Scientific computations
NumPy	Numerical operation in array
Tensorflow	Creating a model and running code on GPU
Keras	Creating model (deep learning)
Pandas	Time series data analysis and data frame
Matplotlib	Visualization
Seaborn	Visualization
NLTK	Natural language toolkit
Jupyter notebook	Python coding
h5py	Model loading
